

## MANAGE PESTS WITH EFFECTIVE, ECO-FRIENDLY PRODUCTS!

## PLANTS THAT ATTRACT HELPFUL INSECTS AND BUTTERFLIES

## LESS TOXIC ACTIVE INGREDIENTS

## MORE INFORMATION

When you water your lawn or garden after using pesticides or fertilizer, polluted water can run off into storm drains and on to local creeks, lakes, bays, or the ocean. But—there are plenty of ways to keep pests away that don't pollute, like using the less-toxic products you'll find in this guide!

**Our Water Our World** is a partnership between home and garden centers and local government agencies working together to reduce water pollution caused by pesticides. Look for **Our Water Our World** fact sheets on the literature stand in your local store.
